

# Key Investor Information

This document provides you with the key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## LF Lightman European Fund, Class I Income, a fund within LF Lightman Investment Funds (ISIN: GB00BJCWFY55)

The fund is managed by Link Fund Solutions Limited.

### Objective and investment policy

#### Objective

To provide long term (in excess of 5 years) capital growth.

#### Investment Policy

To be at least 80% invested in the shares of European companies (excluding the UK).

The fund may also invest in shares of UK companies, non-European companies, unlisted companies (meaning you cannot buy and sell the shares on a stock exchange) and cash. The Investment Manager invests in companies which in their opinion are undervalued but have strong potential to increase in value. Not more than 5% will be invested in UK Companies. UK Companies are those companies that are domiciled, incorporated or have a significant portion of their business in the UK.

Essential features of the fund:

- The fund will have approximately 40 to 50 holdings.
- The fund can invest in other funds (including those managed by the Manager and its affiliates).
- The fund has the discretion to invest without the need to adhere to a particular benchmark.
- Other than as noted in the Investment Policy, the fund has no specific targets in relation to markets, asset classes or geographical sectors.
- You can buy and sell shares in the fund on each working day.
- The fund aims to distribute available income every year.
- Derivatives and forward currency contracts may be used to manage the risk profile of the fund, reduce costs or generate additional capital or income.
- Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

### Risk and reward profile

- This indicator shows how much a fund has risen and fallen in the past, and therefore how much a fund's returns have varied. It is a measure of the fund's volatility. The higher a fund's past volatility. As the fund has less than 5 years price history, this calculation incorporates the volatility of an appropriate benchmark index. The higher the number on the scale and the greater the risk that investors in that fund may have made losses as well as gains. The lowest number on the scale does not mean that a fund is risk free.
- The fund has been classed as 6 because its volatility has been measured as above average to high.
- This indicator is based on historical data and may not be a reliable indication of the future risk profile of this fund.
- The risk and reward profile shown is not guaranteed to remain the same and may shift over time.
- Currency Risk: As the fund invests in overseas securities, movements in exchange rates may, when not hedged, cause the value of your investment to increase or decrease.
- Counterparty Risk: As the fund may enter into derivative agreements there is a risk that other parties may fail to meet their obligations. This may lead to delays in receiving amounts due to the fund, receiving less than is due or receiving nothing.
- Unlisted Securities: The fund may invest in unlisted securities which are more difficult to buy or sell, sometimes significantly harder, when compared to larger more established securities and more difficult to value which may cause larger short term swings (both up and down) in the value of the fund.
- Concentration Risk: The fund may hold a small number of investments and/or invest in stocks with a particular industry, sector or geographical focus. The value of the fund may therefore be subject to large swings (both up and down).
- The value of investments, and the income from them, will fluctuate. This will cause the fund price to fall as well as rise and you may not get back what you originally invested.
- For full details of the fund's risks, please see the prospectus which may be obtained from the address in 'Practical Information' below.

## Charges for this fund

The charges you pay are used to pay the costs of running the fund. These charges reduce the potential growth of your investment.

| One-off charges taken before or after you invest              |       |
|---|-------|
| Entry Charge  | None  |
| Exit Charge   | None  |
| Charges taken from the fund over the year                     |       |
| Ongoing Charges   | 0.60% |
| Charges taken from the fund under certain specific conditions |       |
| Performance Fee   | None  |

The ongoing charges figure is capped at 0.60% until further notice. This figure may vary from year to year. The ongoing charges are taken from the income of the fund. It excludes performance fees, portfolio transaction costs, except entry/exit charges paid by the fund when buying or selling units in other collective investment schemes.

A dilution adjustment may be made which may increase or decrease the price you receive when you buy or sell shares in the fund.

For more information about charges, please see the prospectus sections 3.5 & 7, which may be obtained free of charge from the address in 'Practical Information' below.

## Past performance

- Past performance is not a guide to future performance.
- The fund was launched in March 2019.
- The share class was launched on 12 April 2019.
